Remarks

In the office action, the examiner indicated that several numbers were used to identify different parts and requested changes be made to the drawings to reflect such usage. The drawings are correct and the use of the numbers in the specification incorrect and as a result the objection to the drawings should be withdrawn. Paragraphs [0016], [0017] and [0019] in the specification have been amended to correctly identify the components with respect to the drawings. No new matter has been added.

This amendment places this application in condition for a timely notice of allowance be issued for this application.

Should the examiner have any concerns with respect to the amendment applicant would appreciate a telephone call to discuss such concerns. .

Respectively Submitted

Ryan Heath
